Work Completed:

Explain what work has been done during the reporting period. You can arrange chronologically, or divide it into each task you have done. But be consistent. **One of the required task is to make a detailed flow chart for your project. It should be different from the previous one, which should give more steps and details, including subroutine movements. Please include the flow chart in your report. This flow chart will help me understand your design, and also help you verify your code logic.**

Problems:
